Gwaii Haanas Trip Planner
Gwaii Haanas National Park Reserve, National Marine Conservation Area Reserve, and Haida Heritage Site is a wild place. With no road access, stores, cell phone coverage and little signage, it is a true wilderness experience. The breathtaking beauty of the place is awe-inspiring.

Gwaii Haanas is one of the only areas in the world that is protected and managed from sea floor to mountain peak. It is also unique because it is managed as a true and equal partnership between the Government of Canada and the Council of the Haida Nation through the Gwaii Haanas Archipelago Management Board.

Visitors come from all over to explore this jewel at the edge of the world, with its sheltered sandy bays, turquoise inlets, Haida villages, and old growth forests. Gwaii Haanas’ unique combination of coastal temperate ecosystems and Haida culture make this a place like no other on earth.

Gwaii Haanas visitor experiences can include paddling kayaks or catching the wind and sailing alongside Pacific white-sided dolphins and seeing humpback whales breaching. Visitors can float through Burnaby Narrows, teeming with intertidal life, and see a vast array of species.

Archaeological evidence of human habitation on these islands goes back at least 14,000 years. Throughout these millennia, the Haida have developed a complex society and culture. They create art, ceremony, medicine, and meet their needs through their intimate connection to the land and sea. Haida art forms, reflecting the intertwining of the people with the land, sea, and spirit world, continue to garner international recognition.

WHAT IS GWAII HAANAS?

Gwaii Haanas visitor experiences can include paddling kayaks or catching the wind and sailing alongside Pacific white-sided dolphins and seeing humpback whales breaching. Visitors can float through Burnaby Narrows, teeming with intertidal life, and see a vast array of species.

Archaeological evidence of human habitation on these islands goes back at least 14,000 years. Throughout these millennia, the Haida have developed a complex society and culture. They create art, ceremony, medicine, and meet their needs through their intimate connection to the land and sea. Haida art forms, reflecting the intertwining of the people with the land, sea, and spirit world, continue to garner international recognition.
THE CREST OF THE ARCHIPELAGO
MANAGEMENT BOARD IS A UNIQUE
DESIGN BY LOCAL HAIDA ARTIST, CHIEF
GITKINGUAAS. THE SEA OTTER AND THE
SEA URCHIN WERE CHOSEN BECAUSE OF
THEIR SIGNIFICANCE IN THE ECOTRENIC
AND CULTURAL HISTORY OF GWAII HAANAS.

KELP FORESTS ARE AMONG THE MOST
PRODUCTIVE ECOSYSTEMS IN THE WORLD.
HISTORICALLY IN GWAII HAANAS,
POPULATIONS OF SEA URCHINS, WHICH FEED
HEAVILY ON KELP, WERE KEPT IN CHECK BY
SEA OTTERS. THIS ENSURED AN ABUNDANCE
OF KELP AND PROVIDED HABITAT FOR MANY
SPECIES, FROM SEA STARS TO FISH AND
MARINE MAMMALS.

WITH THE EXTINCTION OF SEA OTTERS
DURING THE MARITIME FUR TRADE ERA,
THE NATURAL BALANCE WAS DISRUPTED.
THE SEA URCHIN POPULATION INCREASED
DRAMATICALLY. UNDERWATER DESERTS
NOW EXIST WHERE THERE WERE ONCE RICH
FORESTS OF KELP. THE LOSS OF THE SEA
OTTER IS A POWERFUL REMINDER OF THE
VULNERABILITY OF INDIVIDUAL SPECIES
AND ENTIRE ECOSYSTEMS.

JULY TO MID-AUGUST IS OUR BUSIEST
PERIOD, SO IF YOU PLAN TO VISIT DURING
THIS TIME, VERIFY THE AVAILABILITY OF
YOUR GWAII HAANAS DATES BEFORE
FINALIZING YOUR TRAVEL PLANS.

RESERVE
IF YOU ARE TRAVELLING TO GWAII HAANAS
ON A SELF-GUIDED TRIP, CONTACT THE GWAII
HAANAS OFFICE TO MAKE YOUR RESERVATION
AND PAY YOUR FEES (SEE BACK COVER). IF YOU ARE TRAVELLING ON A GUIDED TRIP,
YOUR RESERVATION AND PAYMENT IS DONE
DIRECTLY WITH THE TOUR COMPANY.

OUR RESERVATION SERVICE IS AVAILABLE
MONDAY TO FRIDAY FROM 8:30 AM TO
4:30 PM THROUGHOUT THE YEAR. BE
PREPARED TO PROVIDE YOUR PLANNED
ENTRY AND EXIT DATES, THE NAMES AND
AGE CATEGORY OF EVERYONE IN YOUR
GROUP, CREDIT CARDS DETAILS AND
YOUR VESSEL REGISTRATION NUMBER,
IF APPLICABLE.

WE UNDERSTAND THAT FOR BOATERS
TRAVELLING TO GWAII HAANAS, YOUR
TRIP PLANS WILL BE WEATHER DEPENDENT.
HOWEVER, RESERVATIONS ARE STILL
REQUIRED. RESERVE YOUR ANTICIPATED
ENTRY AND EXIT DATES. IF WEATHER OR
MECHANICAL ISSUES RESULT IN CHANGES
TO YOUR ENTRY DATE, PLEASE CONTACT OUR
OFFICE AS SOON AS POSSIBLE TO DISCUSS
ALTERNATE PLANS.

GWAII HAANAS FEES
MAY 1 TO SEPT 30
DAILY FEE SEASONAL FEE
Adult $20.00 $120.29
Senior $16.90 $100.26
(65 years or over)
Youth FREE FREE
(17 & under) (Tax included)

ATTEND ORIENTATION
ALL GWAII HAANAS VISITORS WHO ARE
NOT TRAVELLING WITH A LICENSED TOUR
OPERATOR MUST ATTEND AN ORIENTATION.

THIS 90-MINUTE SESSION PROVIDES AN
OPPORTUNITY TO CONNECT WITH GWAII
HAANAS STAFF, ASK QUESTIONS ABOUT
YOUR UPCOMING TRIP, AND LEARN ABOUT
THE AMAZING HAIDA CULTURE. THE
ORIENTATION WILL INCLUDE INFORMATION
ON CLOSURES, TRAVELLER PROTOCOLS AND
WHAT TO DO IN CASE OF AN EMERGENCY.
WE LOOK FORWARD TO MEETING YOU!

VISITORS WHO ARE CONCERNED ABOUT
ATTENDING AN ORIENTATION IN PERSON
SHOULD CONTACT THE GWAII HAANAS
OFFICE EARLY IN THEIR PLANNING PROCESS.

ORIENTATIONS IN VANCOUVER AND SIDNEY, BC:
EACH SPRING WE DELIVER ORIENTATIONS IN
VANCOUVER AND SIDNEY. PLEASE CHECK OUR
WEBSITE OR CALL OUR OFFICE FOR CONFIRMATION
ON DATES, TIMES AND LOCATIONS.

ORIENTATION SCHEDULE SKIDEGATE, B.C.
JUNE, MON TO FRI AT 9 A.M.
JULY 1 TO AUGUST 15, MON TO SAT AT 9 A.M.
AUGUST 16 TO 31, MON TO FRI AT 9 A.M.
IF YOU NEED AN ORIENTATION BEFORE JUNE OR
AFTER AUGUST, PLEASE CONTACT OUR OFFICE TO
BOOK A TIME. 48 HOURS’ NOTICE IS REQUIRED.
ORIENTATIONS ARE HELD AT THE HAIDA HERITAGE
CENTRE, IN SKIDEGATE. IT IS NOT NECESSARY TO
RESERVE SPACE IN SCHEDULED ORIENTATIONS.
IF YOU WOULD LIKE AN ORIENTATION OUTSIDE THE
SCHEDULED TIMES, IN OTHER LOCATIONS, OR FOR A
LARGE GROUP, PLEASE CONTACT THE GWAII HAANAS
OFFICE AS FAR IN ADVANCE AS POSSIBLE.
SESSIONS DELIVERED OUTSIDE NORMAL WORKING
HOURS COST $78.50. PAYMENT IS MADE AT TIME
OF BOOKING.
ABOUT GWAII HAANAS

A WILD PLACE
Facilities in and around Gwaii Haanas are minimal. Access is limited to boats and seaplanes.

There are no roads, stores, or fueling facilities. There are a few mooring buoys, two water hoses, and limited navigational aids.

Make daily travel plans flexible to accommodate weather delays. Bring enough fuel and food to last for a few extra days. Carry clothing and equipment for a variety of weather conditions.

This area has significant tidal variation, strong currents, rapidly changing weather, and strong winds that develop with little or no warning.

Take the time to learn about the waters you plan to navigate.

If you are unsure of the area or your skill level, try a guided trip. Licensed tour operators offer many types and lengths of organized trips.

BOATING TO GWAII HAANAS
Generally, small craft travel the inside waters of Carmichael Passage and Dana Passage from Moresby Camp to Gwaii Haanas. This route avoids the exposed waters between Cumshewa Head and Talunkwan Island.

Louise Narrows has strong currents and shallow waters. Time your travel with the tide. Be aware of your draft, transit at high waters, and follow the markers. There is little room for error. Call on channel 6 before entering the Narrows to ensure there is no opposing traffic. If in doubt, avoid Louise Narrows.

Porter Head, on the Tangil Peninsula, is exposed to big seas, wind, and currents – exercise caution.

It takes about two days, weather permitting, to travel by kayak from Moresby Camp to the northern boundary of Gwaii Haanas at the Tangil Peninsula a distance of nearly 25 nautical miles.

A popular alternative is using a licensed tour operator to transport you and your kayak to Gwaii Haanas.

BOAT LAUNCH
The closest boat launch to Gwaii Haanas is Moresby Camp in Cumshewa Inlet, over 20 nautical miles from the Gwaii Haanas boundary.

Moresby Camp is a provincial recreational site, accessible by rough logging road. Check at the local visitor centres for detailed instructions on times and procedures for travelling on active logging roads. Always drive with your headlights on.

CAMPING
Gwaii Haanas has no designated campsites. However, there are many good camping spots for small groups of up to three tents. You will require maps or charts to plan your daily itinerary and overnight stops. Allow enough time to check that each planned campsite is available and suitable for your group and the current weather conditions.

It is important to note that camping at any one location is limited to a maximum of three nights unless weather prevents safe travel. Location is defined as an area within a radius of one nautical mile.

You will need waterproof bags and ropes for hanging food out of bears’ reach. Food must not be cached onshore or in kayaks. Pack biodegradable soaps and shampoos. Bring a reliable cook stove. Always keep fires on the beach and well below the last high tide mark. Clean your campsite and fire so that no visible trace is left – please help maintain the wilderness experience for others.

CLOSURES
Several highly sensitive areas, including all caves, are closed permanently for ecological or cultural reasons.

Temporary closures may be necessary for reasons such as bear activity or to accommodate conservation and restoration projects.

Maps, and further information about areas closed to camping or access are provided during the visitor orientation.

Closures and areas with restricted access are listed on the Important Bulletins page of the Gwaii Haanas website.

DRINKING WATER
During the summer, streams may become dry. Always carry a reserve of water, and bring your own water when visiting Watchmen sites.

For the convenience of larger vessels, water hoses are available at the following locations:

- West side of Louscoone Inlet
- Dock west of Shuttle Island

These hoses supply untreated stream water which should be purified before use.

FISHING
In the marine area of Gwaii Haanas, sustainable recreational and commercial fishing continues. However, in order to meet key ecological and cultural goals, areas of sustainable fishing are interspersed with zones of full protection, where fishing is not permitted. Detailed maps and descriptions are provided at the mandatory visitor orientation.

A license is required for saltwater fishing. These licenses are available online from Fisheries and Oceans Canada. pac.dfo-mpo.gc.ca

Freshwater fishing is not permitted within Gwaii Haanas.

PETS
Please do not bring pets, with the exception of service animals, ashore at any Watchmen Site. Pets on a leash are welcome in other parts of Gwaii Haanas.
VISITING GWAII HAANAS

ORIENTATION LOCATION
Gwaii Haanas orientations are at the Haida Heritage Centre at Kay Llnagaay in Skidegate. Follow the Gwaii Haanas orientation signs from the parking lot to the entrance of the Centre.

The Haida Heritage Centre is 6 km east of the Village of Queen Charlotte, on the western-most edge of Skidegate. If you are coming from the Sandspit or Queen Charlotte harbours and do not have a vehicle, you will need to arrange transportation. Taxi and rental car options are available.

gohaidagwaii.ca/getting-around

CANCELLATIONS
Please contact the Gwaii Haanas office to cancel a reservation. (See back cover)

GWAII HAANAS MEDIA PERMITS
All media members require a media permit when travelling in Gwaii Haanas. Media are defined as journalists, photographers, videographers and bloggers travelling on assignment or on spec. It is important to contact us early to register for your permit as well as for project and trip advice. We work closely with the Haida Nation communications department to review all media permit applications.

We offer complimentary fact checking, photo and video gathering services to media before or after their travels in Gwaii Haanas.

We offer complimentary fact checking, photo and video gathering services to media before or after their travels in Gwaii Haanas. Please contact the Gwaii Haanas office and ask for assistance from a media permit coordinator.

TRIP PERMIT TAGS
You will receive your trip permit tag at your orientation. Display this tag while travelling in Gwaii Haanas or visiting any Haida Gwaii Watchmen site.

ORIENTATION IN FRENCH
To receive an orientation in French, please contact our office as early as possible in your planning process.

KAYAK SHUTTLE SERVICE
If you use a licensed operator to drop you and your kayak in Gwaii Haanas, you are still considered an independent visitor. You must make a reservation and attend an orientation prior to your trip. Some shuttle service providers can deliver orientations to the independent visitors they transport. See page 16 for more information.

Long ago, Haida watchmen were posted at strategic positions around a village to raise the alarm in advance of an approaching enemy. The current Haida Gwaii Watchmen Program began in 1981 as a volunteer initiative designed to protect Haida villages and other important cultural sites in Gwaii Haanas. Today, Watchmen welcome visitors and act as guardians protecting the villages and artifacts from spring until autumn at:

K’uuna Llnagaay (Skedans)
T’aanuu Llnagaay (Tanu)
Hlk’yah Gwa’ga (Windy Bay)
Gandll K’in Gwaay.yaay (Hotspring Island)
SGang Gwaay (Anthony Island)

Listen, as Haida Watchmen share oral histories and stories passed down through generations.

Haida poles at SGang Gwaay, a UNESCO World Heritage Site, and K’uuna Llnagaay (Skedans Village) stretch into the sky, and are an awe-inspiring glimpse into the past. Poles are maps of Haida lives and lineages and a connection with the supernatural, displaying crests associated with certain families and people.

With amazingly large posts and beams defining enormous tiered house pits dug into the earth, longhouses offer a window into traditional Haida life. Haida longhouse construction has been recognized as an architectural design unique to the Haida.
Our detailed summer program schedule can be found on the Gwaii Haanas website, posted in the Haida Heritage Center and at visitor information centres in Queen Charlotte, Sandspit and Masset.

GUIDED WALKS
LOW TIDE BEACH WALK
Haida Gwaii’s huge tides provide great opportunities to explore the beach. As the tide falls, join a Gwaii Haanas Interpreter and meet some of the strange and beautiful animals that live along our shores.

Location: Beach in front of the Haida Heritage Centre, Skidegate

SPIRIT LAKE HIKE
Come and explore the sights, sounds, and smells of a coastal temperate rainforest with a Gwaii Haanas Interpreter. Meander along a small stream to tranquil Spirit Lake, a place of story and enchantment.

Location: Spirit Lake Trailhead across Highway 16 from George Brown Recreation Centre in Skidegate

TALKS AND ACTIVITIES
During June, July and August join us at the Haida Heritage Centre in Skidegate and learn about the history, stories, and science behind Gwaii Haanas. From short, interactive talks to hands-on activities we are happy to share our knowledge with you, and to answer any questions you may have!

Private bookings: Do you have a large group or a tight schedule? Consider booking a private program. Contact us for more information.

KEEP MARINE INVADERS OUT
Be aware that your boat may be transporting nasty wee hitchhikers! Marine invasive species such as sea squirts (tunicates) with names like sea vomit, golden star tunicate and violet tunicate, can settle on the hull of your boat. The invasive tunicates will be transported to another location where they can reproduce and spread where they are not wanted, smothering native species in the process.

Invasive species can harm local ecosystems by displacing native species or making life more difficult. Some invaders like the green crab can also have negative impacts on native habitats such as eelgrass meadows. Some aquatic invasive species cause serious economic impacts by damaging human infrastructure.

Please do not bring marine invaders into Gwaii Haanas! Field surveys show that we have few marine invaders compared to places like Vancouver and Victoria and you can help us keep it that way. Before coming to Gwaii Haanas, get to know what these invasive marine species look like, check your boat hull and equipment to ensure you don’t have any unwanted hitchhikers, and take precautions to remove any that you do have. Species identification guides and instructions on how to prevent their spread are available from Fisheries and Oceans Canada.

KEEP FOOD, WASTE AND GEAR IN RAT-PROOF, SEALED STORAGE AREAS.
• Seal all entry points on your boat.
• Install traps on your boat.
• Use rat guards on ship-to-shore lines.
• Keep food, waste and gear in rat-proof, sealed storage areas.
• Inspect your boat regularly for signs rats nearby.
• Know which anchorages have shelter rats.
• Never throw a live rat overboard.
• Use rat guards on ship-to-shore lines to prevent rats from boarding at ports.

How you can help
Keep your vessel rat-free. Rats are great stowaways. By maintaining a rat-free vessel, you will help prevent the introduction of rats to more islands.

• Keep food, waste and gear in rat-proof, sealed storage areas.
• Inspect your boat regularly for signs of rats such as droppings, nests and chewed food, wood, or wires.
• Know which anchorages have rats nearby.
• Clean up any debris that could shelter rats.
• Never throw a live rat overboard. They are good swimmers and may reach land.
• Use rat guards on ship-to-shore lines to prevent rats from boarding at ports.
• Install traps on your boat.
• Seal all entry points on your boat. Rats can crawl through holes as small as 1 cm.

INTERPRETIVE PROGRAMS
Are you interested in learning more about the land, the sea and the people of Gwaii Haanas? Also, we’d love to see you at some of our Gwaii Haanas programs offered in and around beautiful Skidegate village.

We offer a variety of captivating and hands-on programs ranging from guided forest and shoreline walks to presentations and interactive activities delivered in the comfort of the Haida Heritage Centre.

PROTECTING SEABIRDS
Rats, first introduced to Haida Gwaii with the advent of maritime shipping in the late 1700s, are known to occur on at least 18 islands in the archipelago. Rats have devastating effects on populations of nesting seabirds, forest songbirds and native small mammals.

To keep visitors’ vessels rat-free, Gwaii Haanas provides all boaters travelling to the area free Rat Aware Program kits, complete with traps.

WHITE-NOSE SYNDROME
White-nose syndrome is a serious fungal infection in bats that was introduced to North America. It has been spreading westward since its introduction, and in 2016 was detected on the Pacific Coast in Washington State. The mortality rate for infected bat populations is 80 to 100 percent. The disease has killed over five million bats in North America so far and has added several bat species to the list of endangered species.

White-nose syndrome is spread by human transport of fungal spores. The remote location of Haida Gwaii provides a refuge for bat species threatened by the disease.

You can play a vital role in ensuring that you do not inadvertently transfer fungal spores to Haida Gwaii. Please thoroughly decontaminate all your gear prior to arriving on Haida Gwaii, especially if you are involved in caving or mining activities.

Instructions for decontamination are available from the Canadian Wildlife Health Cooperative.

white-nose syndrome videos.vhuc.mpo.gc.ca/Library/965536.pdf

All caves in Gwaii Haanas are closed to public access.
TRAVELLING TO HAIDA GWAII

BC FERRIES
There are sailings two to five times a week, depending on the season, between Prince Rupert and Skidegate Landing. Day crossings are 6 hours and night crossings are 8 hours. A second route, referred to as the Inside Passage, sails between Port Hardy on Vancouver Island and Prince Rupert. Reservations are required for both these routes.

1-888-BCFERRY (1-888-223-3779)
customerservice@bcferries.com
bcferries.com

AIR CANADA
There are daily flights between Sandspit (YZP) and Vancouver International (YVR) airports.

1-888-247-2262
aircanada.com

PACIFIC COASTAL AIRWAYS
There are daily flights between Masset (ZMT) and Vancouver International Airport’s South Terminal (YVR).

INLAND AIR CHARTERS LTD.
Floatplane flights between Prince Rupert and Masset harbours.

1-888-624-2577
info@inlandair.bc.ca
www.inlandair.bc.ca

SMALL CRAFT HARBOURS
Facilities for recreational and commercial vessels are available in several communities. Facilities vary.

GETTING AROUND HAIDA GWAII
The communities of Old Massett, Masset, Tow Hill, Port Clements, Tl’et, Skidegate, and Queen Charlotte are located on Graham Island. Sandspit, Alliford Bay, and Moresby Camp are located on the northern part of Moresby Island. A 20-minute ferry ride connects Moresby and Graham Islands. Eagle Transit runs a daily shuttle service between the Sandspit airport and Skidegate and Queen Charlotte. Reservations are required.

1-877-747-4461
eagletransit.net

Car rentals are available in Skidegate, Sandspit, Queen Charlotte, and Masset. Book in advance.

VISITOR INFORMATION
Trip planning help, including the Haida Gwaii Trip Planner/Tats’wii Hlaats’ii Hla, is available from gohaidagwaii.ca.

Community visitor centres are located in:
• Sandspit (250-637-5362)
• Queen Charlotte (250-559-8316)
• Port Clements (250-557-4576)
• Masset (250-626-3982)
Licensed operators offer a variety of expeditions, tours and transportation options. Excursions range from flight seeing and day trips by motor boat to longer sea kayak and sailing expeditions.

Only operators who are licensed by the Archipelago Management Board may operate within Gwaii Haanas.

The following is a list of all tour operators that have an allocation to operate in Gwaii Haanas. Contact tour operators directly with questions or to book a tour.

**WHAT DOES LICENSING MEAN?**

The Gwaii Haanas business licensing process ensures that minimum safety standards are met for all businesses that operate in Gwaii Haanas. Gwaii Haanas does not evaluate guides on the extent of their knowledge of local natural and cultural features, and service standards vary from business to business. You are encouraged to discuss your service expectations with your prospective transportation or tour operator prior to confirming your trip plans.

If you have questions about authorized tour operators, please contact the Gwaii Haanas office.

**Kayak mothership services listed here include either guided or unguided kayaking, and can be boat or land-based. Contact tour operators for more information.**
SAFETY AND WEATHER

SELF-SUFFICIENCY IN A REMOTE LOCATION
Gwaii Haanas is remote. It is critical that visitors who plan to travel on their own have the skills and are adequately prepared to be self-sufficient in emergency situations, including equipment failure. Emergency responses are weather-dependent. In foul weather it may be many hours before emergency response personnel reach visitors in distress. Below is a list of the main hazards that visitors need to understand and prepare for before coming to Gwaii Haanas.

HYPOTHERMIA
Hypothermia is the extreme loss of body heat and can result in unconsciousness and death. Hypothermia is caused by cold, but it is aggravated by wet, wind, and exhaustion. Kayakers are particularly susceptible. To prevent hypothermia, wear a warm hat in cool, damp, or windy weather; dress in layers; take frequent rest stops; and eat frequent, nutritional snacks and drinks. Pay attention to your body.

WILDLIFE ENCOUNTERS
Black bears are found throughout Gwaii Haanas. They are opportunistic feeders and will take advantage of any food source left accessible to them. Because of the risks associated with bears that become habituated to human food, Gwaii Haanas expects that all visitors will store their food, garbage, and toiletries, which can be easily attractive to bears, in a way where there is NO chance that a bear can gain access. Introduced species, including rats, squirrels, and raccoons, will also take advantage of any available food. Food lockers or hanging devices are not provided in Gwaii Haanas. Visitors must come prepared to store their food using a hanging technique or by using wildlife-proof storage containers. Bear bangers are not permitted in Gwaii Haanas.

WATER CONTAMINATION
All water in Gwaii Haanas is untreated. Be prepared to adequately treat your drinking water to eliminate potential water-borne illnesses and parasitic infections.

ALLERGIC REACTIONS
Any visitors who have known allergies are strongly encouraged to carry the appropriate supplies to help them manage an allergic reaction until they can obtain advanced medical care. It is recommended that all visitors include allergy medications in their first aid kits in case someone has an unexpected allergic reaction, something that can occur when people are travelling in an unfamiliar environment. Insect repellent is also recommended to minimize the discomfort associated with insect bites as well as reduce the risk of allergic reactions.

MEDICAL INSURANCE
Gwaii Haanas field staff are trained to act as first responders in public safety and first aid emergencies. Gwaii Haanas may request that British Columbia Ambulance provide patient care and evacuate the person to medical facilities. Gwaii Haanas is perched at the edge of the continental shelf, and although the chances of experiencing a significant earthquake or tsunami during your trip into Gwaii Haanas are small, you should be aware of the risk. We recommend, at minimum, a tsunami emergency kit should include:

- Flashlight
- Batteries
- Extra batteries
- Water and non-perishable food (three to seven day supply)
- Medical supplies and medications
- Blanket/sleeping bag
- Hand wipes, sanitizer
- Personal hygiene items (soap, toothpaste, toothbrush)
- Matches/fire starter
- Jacket/rain gear

MOORING BUOYS, DOCKS, AND ANCHORING
There are mooring buoys in several locations in Gwaii Haanas, as well as a dock near Shuttle Island. Visitors are advised to use these facilities at their own risk. Larger vessels should anchor. Docks and buoys at the Gwaii Haanas operations stations are limited to staff use except in the case of an emergency.

VHF MARINE RADIO
All boats travelling in the Gwaii Haanas area should be equipped with a VHF radio. Each kayak group should have at least one VHF radio with two fully-charged batteries. You will need a VHF marine radio to:
- Call for emergency assistance from Coast Guard (Channel 16)
- Listen to marine weather forecasts (Channel 21)
- Request access to Haida Gwaii Watchmen village sites (Channel 6)

To operate a VHF radio, you must be certified by Industry Canada with a minimum of the Restricted Operator Certificate (Maritime). Contact the Canadian Power and Sail Squadron for a Registered Examiner in your area: cps-eqp.ca.

WEATHER
The climate of Haida Gwaii is typical of British Columbia’s outer west coast – cool and wet virtually any time of the year. The east side of Haida Gwaii is considerably drier than the west, which receives between 500 and 800 centimeters of rain a year.

Winds in the summer can blow strongly for lengthy periods. These winds funnel over the islands and down inlets on the east coast creating gusty conditions that can be hazardous, especially for kayakers.

Storms associated with frontal systems occur frequently in winter and are not uncommon in the summer months. Include “weather days” in your travel plans.

A small craft warning is always in effect for the waters in this area. Boaters and kayakers must listen for cues on the Canadian Coast Guard marine weather forecasts and rely on their observations of local conditions to remain safe.

EARTHQUAKE AND TSUNAMI PREPAREDNESS
A small craft warning is always in effect for the waters in this area. Boaters and kayakers must listen for cues on the Canadian Coast Guard marine weather forecasts and rely on their observations of local conditions to remain safe.

BOATING SAFETY
All vessels, including sea kayaks, must meet the minimum safety standards contained in the Canadian Small Vessel Regulations in the Safe Boating Guide and the Sea Kayaking Safety Guide available from the Canadian Coast Guard.
tc.gc.ca

KAYAKING SAFETY
Check the Gwaii Haanas website, under Visitor Safety = Kayaking Safety, for a checklist of recommended and required items for kayaking in Gwaii Haanas.

SAIL PLAN
Leave your sail plan with a trusted family member or friend. Close your sail plan by checking in with your family or friend when you return, or you may be held financially responsible for unnecessary search and rescue costs incurred on your behalf.

The Canadian Coast Guard will accept a sail plan, if required. Call 250-627-3081.

BE SURE TO ...
- Include “weather days” in your travel plans.
- Be prepared to adequately treat your drinking water to eliminate potential water-borne illnesses and parasitic infections.
- Be prepared to adequately treat your drinking water to eliminate potential water-borne illnesses and parasitic infections.
Before travelling in Gwaii Haanas, please ensure you understand and have experience interpreting marine charts and tide tables and use them to identify marine hazards.

Boaters of all kinds should know how to take compass bearings and use triangulation to establish location. Do not rely solely on a Global Positioning System (GPS).

All boaters must follow the collision regulations of the Canada Shipping Act.

For more details on potential marine hazards in Gwaii Haanas, review the Visitor Safety section of the Gwaii Haanas website.

MARINE CHARTS

Charts at the largest scale are indispensable in this area. The table on this page covers the most frequently travelled part of Gwaii Haanas (east coast and south end). A complete list of charts for Haida Gwaii and the rest of the BC Coast and where to buy them is available from the Canadian Hydrographic Service.

A complete list of charts for Haida Gwaii and the rest of the BC Coast and where to buy them is available from the Canadian Hydrographic Service.

Tide tables are essential for exploring Gwaii Haanas. Tides can be extreme here - up to 7.5 m or 24 ft in tidal variation. Big tides have significant implications for safety and navigation. You'll find uncharted rocks and reefs in the near-shore waters that can be prominent at low tides or hidden under the surface at higher tides. High tides also pull driftwood off the beaches, presenting more hazards to navigation.

The Canadian Hydrographic Service publishes booklets annually that provide daily tides (time and height) for specific locations. Instructions for tide table use are also included.

Refer to: Canadian Tide & Current Tables Volume 7, “Queen Charlotte Sound to Dixon Entrance”

tides.gc.ca

Gwaii Haanas staff are available to answer questions on chart reading and local tide conditions at the visitor orientation session.

Gwaii Haanas has a new, integrated management plan. The Gina ‘Waadluxan Kilguhlga Land-Sea-People plan sets direction for the Archipelago Management Board to manage Gwaii Haanas from mountaintop to seafloor as a single, interconnected ecosystem. The plan outlines a shared vision for the future, includes guiding principles based on Haida cultural values, describes goals and objectives for the next ten years, and provides zoning for the land and sea.

Zoning in Gwaii Haanas does not infringe on inherent Haida rights. Maps and further information are provided to all visitors to Gwaii Haanas either through their tour operator or at the visitor orientation session.

*Chart 3853 provides a useful view of the entire Gwaii Haanas area but the scale is not suitable for navigation.

Some charts are available only in limited formats (digital or print only).
Christine, Outreach and Education Officer
Visit The Haida Gwaii Watchmen
One of my favourite things to do in Gwaii Haanas is learn about the history of the different Haida Gwaii Watchmen sites. I love having a good catch-up with the Haida Gwaii Watchmen and Watchwomen over a cup of tea or coffee at one of the Haida Gwaii Watchmen cabins. It doesn’t happen often, but when it does I feel like I’ve just visited with old friends.

Many, Resource Management Technician
View Find in the South
Taking in the views in the southern-most part of Gwaii Haanas makes me feel like I’m in a far off place or on the edge of the continent. The K’erouard Islands (N65.900638°, W131.018582°) offer stunning views.

Visiting the K’erouard Islands is not an everyday trip. It’s a challenge to get there so when you do make it, thanks to the right combination of weather and tides, it’s a real treat. At the Cape St. James weather station, there are old shelters that are marked with signatures from visitors from the last 50 years or so. Sometimes you can even see steller sea lions or mola mola (sunfish) swimming below your boat.

Miranda, Public Relations and Communications Officer
Imagine a Forest
If you’re near the T’annuuv Llnagaay Haida Gwaii Watchmen site, the native giant enclosure across the way on Kungu Island (N 52°45.169’ W 131°34.973’) is a great place to go for a forest walk. When you’re on the beach, look for a well-worn animal trail starting on the forest edge and hike in about 100 metres to see a big fenced-in area. The enclosure was built in 1998 by the Research Group on Invasive Species (RGIS), the Haida Nation and Parks Canada to see what would grow back. I never could figure out what it was, but maybe there was a Silica Black-tailed deer to munch down the vibrant vegetation.

Gwaii Haanas would not be the place it is today if it were not for all the amazing people – past and present – who have put their heart and soul into these Islands of Beauty.

Haida (thank you)

HAAWA TO THOSE THAT STOOD ON THE LINE
In 1985, a group led by the Haida Nation took a stand against unsustainable logging on Tlaga Kun Gwaay.ay (Lyell Island). The dedicated individuals who stood on the line and those that were involved as the support system showed strength and respect even in the face of being arrested and charged. It is because of their sacrifice that Gwaii Haanas is protected.

HAAWA TO ALL OUR KNOWLEDGE HOLDERS THAT WE CALL UPON
Whether it be Haida language speakers, ethnobotanists, anthropologists, archaeologists, ecologists, biologists or other researchers, we want to say thank you. We cherish your knowledge and use it to inform how we manage Gwaii Haanas. We share what we learn with our visitors through the Watchmen and our interpretive programs.

HAAWA TO THE ARCHIPELAGO MANAGEMENT BOARD
As a true and equal partnership the AMB is made up of members from the Council of the Haida Nation, Parks Canada and Fisheries and Oceans Canada. This incredible team has worked tirelessly to move Gwaii Haanas forward. It is through your dedication to working together that we have achieved so much.

HAAWA TO OUR TEAM MEMBERS
From our interpreters, scientists, administrators, cultural resource advisors, and field staff, Gwaii Haanas has succeeded because of the strengths and commitment of our incredible team.

HAAWA TO OUR TOUR OPERATORS
Every year people from all over the world visit and experience Gwaii Haanas. Thanks to you, people who would not be able to navigate Gwaii Haanas on their own are able to have the experience of a lifetime.

HAAWA TO OUR LOCAL GWAII HAANAS SUPPORTERS
Without the support of local businesses, visitor centres, conservations groups and volunteers we would not be able to accomplish everything we have. Your support is greatly appreciated!

AND FINALLY HAAWA TO YOU, OUR VISITORS
On average, 2,500 to 3,000 people visit Gwaii Haanas each year. As you travel through these waters, walk these beaches, interact with Watchmen and Gwaii Haanas staff, your stories are woven into ours. Haawa for coming and spending some time with us.

Haawa to all those good people who we may have missed, your contributions are no less important and live on in Gwaii Haanas...
GOOD PEOPLE WORKING TOGETHER
