Did you know?
Kootenay National Park lies within the traditional lands of the Ktunaxa and Shuswap.

Ktunaxa Nation

The Ktunaxa (k-too-nah-ha), also known as Kootenay, have occupied the lands adjacent to the Kootenay and Columbia Rivers and the Arrow Lakes for more than 10 000 years. For thousands of years before settlers arrived, the Ktunaxa harvested flora and fauna in the area now recognized as Kootenay National Park, which lies within Kyawâj ?amak?qis (Land of the Grouse).

Our Traditional Territory encompasses 70 000 km² within the Kootenay region of south-eastern British Columbia, and also includes parts of Alberta, Montana, Idaho and Washington.

Our stories teach our generations of seasonal migrations that occurred throughout the area, across the Rocky Mountains and on the Great Plains; of war and trade interactions with other Nations; of place names and landmarks; and of lessons and values.

Our Ktunaxa language is a language isolate, meaning that it is one of a kind and unrelated to any other language in the world.

To learn more, visit ktunaxa.org

Shuswap Indian Band

The Kenpesq’t (ken-pesk-t) community, currently known as the Shuswap Indian Band, is part of the Secwépemc (seck-wep-em) Nation occupying traditional lands in British Columbia and Alberta.

The Secwépemc people have used the areas now encompassed by Mount Revelstoke, Glacier, Yoho, Banff, Jasper and Kootenay national parks for thousands of years prior to the settlement of non-Indigenous peoples.

Many of the roads driven today are based on travel routes used by Indigenous peoples for generations; Indigenous guides were used to create the horse trails that evolved into major highways like the Trans-Canada. Anthropological and archaeological evidence, such as the remains of semi-underground dwellings called pit houses or kekulis, can still be found inside park boundaries.

Parks Canada and the Secwépemc Nation continue to foster a better working relationship that informs the management of natural resources, and enhances the visitor experience for those exploring traditional lands.

To learn more, visit shuswapband.net

Columbia Valley Métis Association

Kootenay National Park is an important place for British Columbia Métis based on a history of trade relationships and expeditions. In 1807, when Kootenaie House was established as the first trading post in the region, a meeting place between cultures was born. Indigenous peoples traded skills, furs, salmon and horses for European tools and cooking implements.

Legendary explorer David Thompson and his wife Charlotte Small, a Métis woman, used the trading post as a home base.

The local knowledge of Métis was central to the success of expeditions. For instance, in 1841 Sir George Simpson of the Hudson’s Bay Company hired a Métis guide for the Rockies leg of his trip, further assisted by Métis interpreter Édouard Berland. That same year, Red River Métis James Sinclair led a large group of families through the region.

The legacy of Métis influence is marked by place names in Kootenay National Park: Mount Berland, Sinclair Pass, Sinclair Creek and Mount Sinclair.

Welcome

Our story

On April 21, 1920, the Government of Canada agreed to build a road connecting the Bow and Columbia valleys. As part of the agreement, eight kilometres of land on either side of the road was set aside for a national park.

The first cars to travel along the new highway bounced over bumps and chugged up steep hills, but according to a 1924 guidebook, “…every mile is a surprise and an enchantment.”

A century later, Kootenay National Park continues to surprise and enchant. Visitors can relax in the soothing mineral pools at Radium Hot Springs, stroll through canyons, picnic beside glacial-blue rivers or backpack along one of the Rockies’ most scenic hiking trails. The park’s diverse ecosystems support a variety of wildlife, and newly unearthed Burgess Shale fossils reveal exquisite details about life half a billion years ago.

Read on to discover more about what this amazing park has to offer.

A place of global importance

The United Nations Educational, Scientific, and Cultural Organization (UNESCO) recognizes four of our national parks – Kootenay, Banff, Yoho and Jasper – as part of the Canadian Rocky Mountain Parks World Heritage Site. The parks are thus protected for the benefit of all nations and the enjoyment of all people.

World Heritage status was awarded based on the stunning landscapes of mountains, glaciers, lakes, waterfalls and canyons, as well as for the incredible soft-bodied remains found at the Burgess Shale fossil sites.
Explore the beautiful exhibits and take in a bird’s eye view of the mountains from a tabletop map. Don’t forget to stop by the Friends of Kootenay gift shop for souvenirs and talk with Radium Visitor Services staff for Columbia Valley trip planning information.

Visitor centre hours
- May 1 to June 10: 9 a.m. to 5 p.m.
- June 11 to Sept. 6: 9 a.m. to 7 p.m.
- Sept. 7 to Oct. 12: 9 a.m. to 5 p.m.

Free Wi-Fi available.

radiumhotsprings.com

Entry fees are charged at all national parks; the revenues support visitor services and facilities. Every time you visit a park you are investing in its future, and in a legacy for future generations. Pick up your day or annual pass at any park gate, visitor centre or staffed campground kiosk.

**DAILY ENTRY**
The daily entry pass is valid in Kootenay, Yoho, Banff, Jasper, Mount Revelstoke and Glacier national parks. Regardless of time of entry, the pass is valid until 4 p.m. the following day.
- Adult (18-64) $10.00
- Senior (65+) $8.40
- Youth (0-17) Free
- Family/group $20.00 (up to 7 people in a vehicle)

**PARKS CANADA DISCOVERY PASS**
Parks Canada’s Discovery Pass is valid for 12 months from date of purchase and gives you unlimited entry to national parks, national marine conservation areas and national historic sites across Canada.
- Adult (18-64) $69.19
- Senior (65+) $59.17
- Family/group $139.40

Your support makes a difference
Be a responsible visitor

I will learn about and follow all national park regulations.
Why? To ensure that I stay safe during my visit and help preserve the park for future generations. See page 17.

I will leave plants, rocks, fossils, antlers and all other natural objects undisturbed.
Why? To let others enjoy them as I have and to preserve the natural beauty and integrity of the park. Thousands of people visit the park each year; a harmful act, multiplied by that amount, can have devastating consequences.

I will never feed wildlife or leave food and garbage outside.
Why? Wildlife need to find their own natural food sources in order to survive; human food lacks proper nutrition and can cause serious health problems. By feeding an animal, you also attract it to roadsides and human areas. This increases the risk of the animal being hit by a vehicle or acting aggressively towards people and being destroyed.

I will give wildlife space.
Why? To avoid injury and keep animals wild. When people stop to view wildlife or get too close, animals lose their natural fear of people. This increases the risk of the animal being hit by a vehicle or acting aggressively towards people and being destroyed.

I will keep my dog on a leash and pick up after it.
Why? Dogs, like wolves and coyotes, cause stress for wildlife as they may be seen as a threat. Off-leash dogs can trigger aggressive behaviour from wildlife, putting yourself, your dog and other visitors in danger. Pick up dog poop to keep the park sanitary. Trails are busy and waste harms water quality, the environment and human health.

I will drive carefully and obey speed limits.
Why? To prevent deadly collisions with animals. In high risk areas, no stopping zones are used to protect motorists and wildlife. Look for signs along the roadside.

Kootenay National Park has incredible natural and cultural heritage.
It is a diverse landscape, a home to wildlife and a place of history.
We need your help to keep it this way!

Take the pledge

☐ I will learn about and follow all national park regulations.
Why? To ensure that I stay safe during my visit and help preserve the park for future generations. See page 17.

☐ I will leave plants, rocks, fossils, antlers and all other natural objects undisturbed.
Why? To let others enjoy them as I have and to preserve the natural beauty and integrity of the park. Thousands of people visit the park each year; a harmful act, multiplied by that amount, can have devastating consequences.

☐ I will never feed wildlife or leave food and garbage outside.
Why? Wildlife need to find their own natural food sources in order to survive; human food lacks proper nutrition and can cause serious health problems. By feeding an animal, you also attract it to roadsides and human areas. This increases the risk of the animal being hit by a vehicle or acting aggressively towards people and being destroyed.

☐ I will give wildlife space.
Why? To avoid injury and keep animals wild. When people stop to view wildlife or get too close, animals lose their natural fear of people. This increases the risk of the animal being hit by a vehicle or acting aggressively towards people and being destroyed.

☐ I will keep my dog on a leash and pick up after it.

Your pledge makes a big difference. Thank you for taking action!
Prepare to make great memories…
Celebrate Kootenay’s centennial

KOOTENAY
1920 2020

Superintendent’s message
Canada’s national parks, historic sites and marine conservation areas represent the very best that Canada has to offer. They tell the stories of who we are and how we came to be. This year, Kootenay National Park is turning 100, and to celebrate we are thrilled to share the park’s stories with visitors from across Canada and the world.

Kootenay National Park is a special place that offers world-class hiking and backpacking, and stunning landscapes hosting a rich diversity of life and a lively history. Kootenay’s story runs much deeper than just the past 100 years though; it encompasses the enduring relationship that Indigenous peoples have with the land, past and present.

All visitors are invited to celebrate this year’s anniversary in Kootenay National Park. Join Parks Canada staff at interpretive activities throughout the park, on a Burgess Shale guided hike or at the Big Splash event in September. We look forward to welcoming you and sharing our stories!

Rick Kubian, Field Unit Superintendent
Kootenay National Park

SUPERINTENDENT’S “MIDNIGHT” SNOWSHOE
late December
As a final send-off to the Kootenay National Park centennial, park superintendent Rick Kubian will lead a special evening snowshoe in the park.

Chat with Rick and other park staff on this easy outing. Bring your own mug for a hot chocolate salute to the next 100 years.

Visit parkscanada.gc.ca/kootenay100 for more information about centennial events and activities.
THE BIG SPLASH EVENT
September 20, 2020
Join us at Radium Hot Springs for a full day of poolside festivities. Highlights include family activities, information booths, interpretive programs, pool demos and a visit from Parka – the Parks Canada mascot. This event coincides with the Columbia Valley Classics Car Show.

KOOTENAY THEN AND NOW Recreate the shot
Visit the spot where the photographer stood to take these historic photos. Line up your camera to recreate the scene and see how much the place has changed – or not – over the past 100 years. Share your “then and now” compositions on social media. #kootenay100

Enjoy connecting with the past?
Visit parkscanada.gc.ca/kootenay100 for more historic photos to recreate.
THE 100 CHALLENGE  Ends October 12, 2020

Complete one of our centennial-themed activity challenges.
Enter individually or as a group of friends or family. Record your progress as instructed, then bring your completed challenge record to the Kootenay National Park Visitor Centre, the Lake Louise Visitor Centre or Radium Hot Springs to claim your centennial-themed prize!

- **HIKE, BIKE OR PADDLE 100 KM IN THE PARK**
  Use the Kootenay National Park Trail Guide to plan your routes. Record your travels in the table.

- **VISIT RADIUM HOT SPRINGS 100 TIMES**
  Soak in the hot pool or swim in the cool pool. Record your visits in the table.

- **IDENTIFY 100 PLANT OR ANIMAL SPECIES**
  Use the iNaturalist app to help identify and record your plant and animal sightings in the park. When you reach 100 species, bring your phone with you to claim your prize. Download the free app at inaturalist.org.

- **TAKE 100 SMILE SHOTS AT SCENIC SPOTS**
  Photograph your smiling faces at as many different scenic locations as you can find in the park. Show us your top five when you claim your prize. Share your favourite photos on social media. #kootenay100

- **BE 100 (OR MORE) YEARS OLD**
  Centenarians, we’d love to meet you! Can’t make it in to claim your prize? Call the Kootenay National Park Visitor Centre to make special arrangements: 250-347-9505.
In 1915, the first portable fire pump was created for the park warden service. A Ford automobile chassis was modified to carry the heavy pumps and lengths of hose.

Starting in the late 1920s, park wardens began to rely on lookout towers to help detect fires in their early stages. In Kootenay, “lookout men” staffed towers on Mount Daer, Mount Shanks and Mount Wardle. By the mid-1970s, road and air patrols, along with satellite remote sensing, had become more efficient ways to detect fires and lookouts were gradually removed.

Fire is an important part of Kootenay National Park. For centuries, lightning and Indigenous peoples ignited fires on this landscape, maintaining a natural cycle of forest renewal. However, when the boundaries of Kootenay National Park were set in 1920, forest fires were regarded as harmful to nature. Park wardens worked hard to develop innovative ways to keep fire out of all national parks.

**Early innovations in the fight against fire**

By the late 1970s, our approach to wildfire management started to change. Research showed that fire actually helped keep park ecosystems healthy. Today, after decades of fire suppression, fire specialists are bringing fire back to the landscape. Wildfires that threaten people, structures or surrounding lands are still actively fought. However, a more natural fire cycle will shape Kootenay National Park over the next century through the use of prescribed fire and other fire management techniques.

As you explore the park, look for signs of recent wildfires to see forest renewal in action.

**Restoring the flame**

Prescribed fires are set intentionally and for a specific purpose. In Kootenay National Park, prescribed fires have been used to restore important grassland habitat and reduce the risk of wildfire to the village of Radium Hot Springs. Hike the Redstreak Restoration Trail to learn more. See pages 8 and 9.

**Did you know?**  The Vermilion Valley in Kootenay is aptly called “Lightning Alley.” Frequent thunderstorms here have ignited huge forest fires in recent years.
Learn about the history of Sinclair Canyon from new interpretive signs, made in collaboration with the Friends of Kootenay and the Village of Radium Hot Springs. Anticipated completion date: June 30, 2020
Make sure your visit includes a soak in Radium Hot Springs’ soothing waters.

**RADIUM HOT SPRINGS**
Surrounded by dramatic cliffs, the hot and cool pools allow you to unwind or play with the kids. Towels and swimsuits available for rent.

**RATES**
- Adult (ages 18-64) $7.46
- Senior (65+) $6.54
- Youth (3-17) $6.09
- Child (under 3) Free

**HOT POOL HOURS**
- April 1 to May 14, 2020
  - Monday to Friday: 1 p.m. to 9 p.m.
  - Saturday and Sunday: 10 a.m. to 9 p.m.
- May 15 to October 12, 2020
  - Daily: 9 a.m. to 11 p.m.

**COOL POOL HOURS**
- April 1 to May 14, 2020
  - Friday: 6 p.m. to 9 p.m.
  - Saturday and Sunday: 10 a.m. to 9 p.m.
- May 15 to June 25, 2020
  - Daily: 12 p.m. to 8 p.m.
- June 26 to September 7, 2020
  - Daily: 9 a.m. to 11 p.m.
- September 8 to October 12, 2020
  - Daily: 12 p.m. to 8 p.m.

*See page 20 for late fall and winter hours.*

Visit **hotsprings.ca** for more information.

---

**VALLEYVIEW PICNIC AREA**
Enjoy a hilltop picnic with a scenic vista. Access the site via the Valleyview Trail or by vehicle via Redstreak Road. Parking is limited.

**VALLEYVIEW TRAIL**
- 2.4 km return, 125 m elevation gain
- Hike up a steep hill for rewarding views of the Columbia Valley, then meander along a flat trail at the top.

**REDSTREAK RESTORATION TRAIL**
- 1 km loop, 5 m elevation gain
- Start at Redstreak Campground. Follow interpretive signs to discover how fire keeps forests healthy and creates habitat for wildlife.

**JUNIPER / SINCLAIR CANYON TRAIL**
- 6 km return, 260 m elevation gain
- Descend into the gorge for a stop at Sinclair Canyon Falls, then head back up to the canyon’s rim. Relax in the Red Chairs at the end.

**TIP**
Come out to an evening interpretive program at Redstreak Campground. You don’t need to be a registered camper to enjoy the programs. Park pass required. [parkscanada.gc.ca/kootenay-interpretation](http://parkscanada.gc.ca/kootenay-interpretation)
This is not a topographical map and is not suitable for route finding.
Highway 93 south is the backbone of Kootenay National Park.

Enjoy an uninterrupted scenic drive or turn off the highway to relax at a day-use area, take in the views or venture out on a hike.

Recommended stops and trails are listed in order from south to north.

1. **KOOTENAY RIVER DAY-USE AREA**
   - Spread out a picnic blanket or access the river for fishing and watersports.
   - 3 km return, 0 m elevation gain

2. **KOOTENAY VALLEY VIEWPOINT**
   - Enjoy breathtaking views of the Mitchell and Vermilion mountain ranges.
   - 2 km return, 0 m elevation gain

3. **OLIVE LAKE DAY-USE AREA**
   - A forested picnic area at the summit of Sinclair Pass.
   - OLIVE LAKE TRAIL
     - 6.5 km return, no elevation gain
     - Look for brook trout as you walk the boardwalk around the lake.

4. **MCLEOD MEADOWS DAY-USE AREA**
   - Take advantage of this cool, shaded picnic area on a hot day.
   - 2 km return, 100 m elevation gain

5. **DOLLY VARDEN DAY-USE AREA**
   - Learn about wildlife fences and underpasses with self-guided activities. Fun for kids!
   - 3 km return, 0 m elevation gain
**PAINT POTS TRAIL**
2 km return, 25 m elevation gain
An easy walk takes you to three iron-rich mineral springs that stain the surrounding earth.

**MARBLE CANYON TRAIL**
1.6 km return, 20 m elevation gain
Admire the shapes and sounds of carved chasms as you hike along the trail. Relax in the Red Chairs at the end.

**STANLEY GLACIER TRAIL**
8.4 km return, 365 m elevation gain
Hike up to a stunning alpine basin and watch glacier meltwater tumble down massive rock walls.

**VERMILION CROSSING DAY-USE AREA**
Enjoy a picnic lunch and explore along the scenic banks of the Vermilion River.

**CONTINENTAL DIVIDE DAY-USE AREA**
Stand on the dividing line between the Pacific and Atlantic watersheds.

**FIREWEED LOOPS TRAIL**
0.5 and 2 km loops, 20 m elevation gain
Walk through a quiet, shaded forest. Interpretive signs along the shorter loop tell the story of regeneration after the wildfire of 1968.

**SIMPSON RIVER TRAIL**
3 km return (interpretive trail section), 10 m elevation gain
NEW! Interpretive signs are being installed along the first 1.5 km of the Simpson River Trail (anticipated completion date: June 30, 2020). Walk through a valley marked by fire and learn about incredible forces of nature: lightning, wildfire, regeneration and succession. The entire family will enjoy the interactive, self-guided activities. Past the signs, the trail continues another 7.3 km to the park boundary.

Check trail conditions at [parkscanada.gc.ca/kootenaytrails](http://parkscanada.gc.ca/kootenaytrails) before you drive into the park. Bring water, snacks, sunglasses, sunscreen, warm clothes and a rain jacket. The weather can change rapidly in the mountains!
Meet Parks Canada’s interpreters
Are you looking for a unique and memorable experience? Do you want to learn more about Kootenay’s natural and cultural heritage? Friendly and knowledgeable interpreters are here to help!

Watch for us at campgrounds and popular day-use areas in the summer months. Or plan your visit around an interpretive experience by checking parkscanada.gc.ca/kootenay-interpretation.

Xplorers program
ages 6-11
Do you like adventure? Discovering new things? Then check out the Kootenay National Park Xplorers booklet. Ask for a booklet at the Kootenay National Park Visitor Centre or Redstreak Campground kiosk. Return at the end of your visit to have your certificate signed and receive a souvenir!

Geocache challenge
all ages
Search for five species at risk as you explore Redstreak Campground and learn the answers to quiz questions. Pick up a booklet at the Kootenay National Park Visitor Centre or Redstreak Campground kiosk.

Hike with an expert guide
Reservations are required for guided hikes. Visit reservation.pc.gc.ca to book your spot.

KOOTENAY FOSSILS REVEALED
ages 5+, moderate hike, 8 km return
Join us on the scenic Stanley Glacier Trail and experience the Burgess Shale fossils first hand. Along this family-oriented trail, your guide will reveal the deep connections between past and present.
You’ll learn about ancient ancestors, new scientific discoveries and have the opportunity to search for fossils in the rocks around you. Hold over 500 million years of history in your hands.

HIDDEN LAKE: A MOSAIC UNVEILED
ages 5+, moderate hike, 10 km return, Lake Louise area
Your guided hike begins with a shuttle bus ride into the Lake Louise backcountry; from here it follows a family-friendly trail. Enjoy stunning summer wildflowers or changing fall larch trees.
Get an in-depth look at Parks Canada’s restoration project protecting westslope cutthroat trout, a species at risk. Join us to unveil the important ecological pieces making up the landscape mosaic around Hidden Lake.

“I loved seeing the smiles on my kids’ faces finding fossils!”
— Visitor comment, Stanley Glacier Burgess Shale Hike feedback form
Reconnect with nature in Kootenay National Park’s frontcountry campgrounds – each one has something different to offer.

Redstreak provides the widest range of services and is located within walking distance of the village of Radium Hot Springs and Radium Hot Springs’ mineral pools. You can even enjoy some of the comforts of home with a night in an oTENTik tent-cabin!

For a more rustic experience, choose to stay at McLeod Meadows or Marble Canyon. McLeod Meadows is nestled beside the Kootenay River, providing quick access to the water; Marble Canyon sits in a quiet, forested area conveniently close to the park’s most popular trails.

Be aware that campgrounds fill up quickly. Book online or call ahead for information and reservations. Reservations open in early January. 

Camping is permitted in designated campgrounds only. A valid camping permit and national park entry pass are required.

Mix of reservable and first-come, first-served sites.

Backcountry camping

There are six backcountry campgrounds in Kootenay National Park. Five are located along the Rockwall Trail, an iconic, 55-km route that traverses through alpine passes and under hanging glaciers.

Pick up a Kootenay National Park Trail Guide at the park gate or Kootenay National Park Visitor Centre.

Visit parks.ca/knp-backcountry for trip ideas, planning and permit information.
Stay safe

KEEP ANIMALS AWAY FROM HUMAN FOOD

Never leave food or scented items unattended or in a tent for even a minute

Clean up your campsite and picnic area

- Store all food, food-related items and scented products in vehicles or storage lockers.
- Dispose of garbage and recycling in wildlife-proof bins.
- Pour out dish water at designated sinks or sani dumps.
- Non-food related items such as lawn chairs, tables or lanterns may be left outside.
Do not approach wildlife. When taking photos, do not surround, crowd or follow an animal.

Do not feed wildlife. This includes littering and leaving food or scented items unattended.

No campfires outside of designated metal fire pits. Never leave a fire unattended unless it is completely extinguished. Be aware of fire bans.

Do not camp in pullouts, trailheads and day-use areas. Camp only in designated campgrounds with a permit.

Do not enter closed areas. Closures are implemented and posted when visitors are at risk or wildlife need protection.

Do not remove natural objects. It is illegal to pick plants, to cut down trees and branches, to remove rocks, fossils and cultural artifacts or to otherwise cause damage.

Drones/UAVs are prohibited for personal use anywhere in the national parks.

Firearms are prohibited in national parks. Firearms include pellet guns, bear bangers, bows, slingshots and similar items.

Do not consume alcohol and cannabis beyond your registered campsite or at Radium Hot Springs. In campgrounds, there is a daily ban on alcohol and cannabis consumption during quiet hours, between 11 p.m. and 7 a.m. Be aware of extended bans during holiday weekends.

Keep aquatic invasive species out of national parks!
Clean, Drain, Dry and self-certification permits are mandatory in Kootenay National Park.

You must:

• CLEAN all mud, sand, plant and animal materials from your boat/SUP/fishing gear.

• DRAIN coolers, buckets, compartments and other items that may hold water.

• DRY completely and for 48 hours before entering any river, lake, or stream. If coming from outside Alberta or British Columbia, dry for 30 days.

You must also possess a self-certification permit stating that you have followed the clean, drain, dry protocol. Violators may be charged under the Canada National Parks Act.

For more information, including where to obtain a self-certification permit and the locations of cleaning/decontamination stations:
parkscanada.ca/cleandraindry-kootenay
pc.lykaquatics.pc@canada.ca

Buy a national park fishing permit
Provincial licenses are not valid. Permits are available at Parks Canada visitor centres.

ATTENTION
Park water users

LAW ENFORCEMENT
Park wardens enforce regulations as required by the Canada National Parks Act.

To report violations, call 24 hours, 7 days per week:
1-888-927-3367 (Banff, Yoho and Kootenay)
1-877-852-3100 (Jasper, Mount Revelstoke and Glacier)

Violators will be charged, be required to appear in court and could pay fines of up to $25,000.
Wildlife need your help

The chance to observe wildlife in their natural habitat is an experience that draws millions of people to the national parks each year.

Along with this opportunity, however, comes the responsibility to treat wildlife with respect.

Do not approach wildlife. When taking photos, do not surround, crowd or follow an animal.

Do not feed wildlife. This includes littering and leaving food or scented items unattended.

Do not litter. Use the wildlife-proof garbage bins for all unwanted items.

Keep dogs on leash at all times. Off-leash dogs can stress wildlife and trigger aggressive behaviour. Protect your dog and the well-being of wildlife and other visitors.

A no stopping zone protects wildlife and motorists in high risk areas. Watch for signs along the roadside and do not stop to view wildlife in this zone.

It is illegal to feed, entice or disturb any wildlife in a national park.

When too many people stop to view wildlife, animals lose their natural fear of people. This increases their risk of being hit by a vehicle or acting aggressively towards humans and being destroyed.

If you see wildlife by the road:
- Slow down.
- If you must stop, pull over when and where it is safe to do so.
- Use hazard lights to alert other drivers.
- Stay in your vehicle.
- Watch for a few moments, take a photo and move on.

Photograph wildlife from a vehicle or safe distance:
- 30 metres for deer, elk, moose and bighorn sheep
- 100 metres for bears, wolves, coyotes and cougars

Pick up a wildlife viewing card at the Kootenay National Park Visitor Centre. This simple tool will help you view and photograph animals from a safe distance.

Directions

30 m (3 buses)
100 m (10 buses)

Give Wildlife Space

18
Have you seen these structures?

Reducing wildlife-vehicle collisions while keeping habitat connected is a priority for Kootenay National Park. From 2013 to 2015, nine wildlife underpasses and fifteen kilometers of exclusion fencing were installed along the park highway. These structures are designed to:

- **Increase motorist safety.** Collisions put motorists at risk of injury or death.
- **Increase wildlife safety.** From 2003 to 2012, over 530 large animal deaths were reported on Highway 93 south.
- **Reduce habitat fragmentation.** Wildlife populations need to cross the highway to access important habitat (food and shelter) and connect with other populations.

Since construction of the underpasses and exclusion fencing, wildlife mortality has decreased by over 85% within the fenced area. The underpasses are being monitored with remote cameras, and to date over 6000 crossings have been recorded. Many species of large mammal are using the underpasses: bears, wolves, cougars, deer, elk and moose.

**YOU CAN HELP**

- **Obey speed limits** and stay alert when driving.
- **Report animal-vehicle collisions.** Note your location and report the incident as soon as possible. This information helps park wildlife staff monitor injured animals, recover dead ones and plan future wildlife crossings.
- **Report animals on the highway side of the fence.** Park wildlife staff are trained to move animals back to the safe side of the fence.

Parks Canada Dispatch: 403-762-1473

---

**Species at risk**

All plants, animals and natural objects are protected in the national parks; however, Parks Canada gives special attention to species at risk – plants or animals in danger of disappearing if we don’t take action.

Some species listed under the Species at Risk Act require immediate help; they have suffered significant declines in numbers or distribution and are on the path toward extinction. Other species need monitoring to ensure they don’t start down this path.

Parks Canada has teamed up with Mirjam Barrueto, a PhD student at the University of Calgary, to study wolverine connectivity in the Columbia and Rocky mountains.

Because wolverines require large areas of undisturbed wilderness, they are one of the best indicators of a healthy, intact ecosystem. Researchers have installed 30 monitoring sites on both sides of the Trans-Canada Highway to investigate how this major transportation route impacts wolverine dispersal.
Winter

Safety

Parks Canada does not maintain or patrol winter trails in Kootenay National Park. Some hiking trails are suitable for cross-country skiing and snowshoeing, but the park is a natural area and travel is at your own risk.

Check trail reports and warnings before you head out:
parkscandada.gc.ca/kootenaytrails

Find information on backcountry travel and how to stay safe in the mountains at
parksmountainsafety.ca

Warm up in Radium Hot Springs

Nestled deep in Sinclair Canyon, heavily frosted trees, covered rocks and steamy water offer the perfect setting to unwind after a cold day. It may be winter in Kootenay National Park, but it’s always 39°C here!

HOT POOL HOURS
October 13, 2020 to March 31, 2021
Monday to Friday: 1 p.m. to 9 p.m.
Saturday and Sunday: 10 a.m. to 9 p.m.

COOL POOL HOURS
October 13, 2020 to March 31, 2021
Friday: 6 p.m. to 9 p.m.
Saturday and Sunday: 10 a.m. to 9 p.m.

You are in avalanche terrain

Avalanche season in the mountains extends from November to June.
Whenever there is snow on a slope, there is potential for an avalanche.
Even a short walk from a parking lot can take you into dangerous terrain.
Check the current avalanche forecast at avalanche.ca
